CAREER OBJECTIVE

Full-Stack Developer (MERN) with hands-on experience building production-ready applications using React.js on the front end and Node.js, Express.js, and MongoDB on the back end. Skilled in RESTful API design, database modeling, JWT authentication, and building responsive, high-performance user interfaces with Tailwind CSS and MUI. Currently completing the IBM JavaScript Back-End Development Professional Certificate, with coursework covering back-end database applications, cloud-native development, DevOps/Agile practices, and version control with Git/GitHub. Strong problem-solving, fast learning, and the ability to work independently or in a team. Seeking a full-stack or backend-focused junior/internship role to apply my skills and contribute to real-world applications.

SKILLS

Languages: JavaScript, HTML5, CSS3, C++, Java

Frontend: React.js, React Hooks, React Router, Tailwind CSS, Material UI (MUI), Bootstrap

Backend: Node.js, Express.js, RESTful API Design, Middleware, JWT Authentication

Database: MongoDB, Mongoose, NoSQL Database Design, Database Development

Cloud & DevOps: Cloud-Native Development, Cloud Deployment, Cloud Applications, Agile/Scrum, Test-Driven Development (TDD)

Tools & Other: Git, GitHub, Firebase (Auth, Firestore), Cloudinary, Figma, Data Visualization (Nivo/Chart.js), Responsive Design, Performance Optimization

WORK EXPERIENCE

Frontend Developer Intern (React.js)

Nov 2024

Independent / Remote — Islamabad, Pakistan

- Developed reusable components and UI modules using React.js, React Hooks, and Context API.
- Built responsive, pixel-perfect interfaces using Tailwind CSS and MUI.
- Integrated REST APIs and implemented real-time data features using Firebase Firestore.
- Designed dashboards and interactive charts using Nivo and Chart.js.
- Implemented 5+ interactive forms with built-in validation and controlled inputs using Formik and Yup, improving user experience and reducing invalid submissions.
- Built complex UI features including a Kanban board, calendar component, and dynamic data tables with filtering and pagination.
- Applied performance optimization techniques such as memoization, lazy loading, and code splitting.
- Created custom hooks for data fetching, debouncing, state persistence, and event listeners.
- Developed authentication flows using Firebase Auth and implemented protected routes.
- Implemented Cloudinary integration for media uploads, optimization, and secure delivery.
- Collaborated remotely using GitHub for version control and followed clean, modular coding practices.
- Improved UI/UX quality through debugging, refactoring, and accessibility enhancements.

PROJECTS

CMS — Company Management System (MERN)

2026

Source: github.com/A422789/FullStackProject

- Built a full-stack company management system using the MERN stack, with separate React.js frontend and Node.js/Express.js backend codebases.

- Designed and implemented MongoDB data models for managing company records and resources.
- Structured the project for scalability with clear separation of client and server concerns.

Chat-Boot — AI Chat Interface

2025 – current

Source: github.com/A422789/chat-boot | Demo: a422789.github.io/chat-boot

- Built a pixel-perfect ChatGPT-style interface using React.js and Tailwind CSS.
- Integrated the Google Gemini API for real-time, AI-generated responses with streaming UI.
- Implemented advanced error handling (429, 500, 503) and fallback UI states.
- Created reusable chat components, custom hooks, and a responsive mobile-first layout.

E-Commerce Storefront

2025

Source: github.com/A422789/e-commers | Demo: a422789.github.io/e-commers

- Developed a full e-commerce store with product pages, cart system, and user flows.
- Implemented guest cart syncing with Local Storage and persistent user carts.
- Integrated REST APIs and Firebase for authentication and real-time product data.
- Built a fully responsive UI using React Bootstrap and custom components.

EDUCATION

Riphah International University

Islamabad, Pakistan

CERTIFICATIONS

Pursuing: IBM JavaScript Back-End Development Professional Certificate (Coursera)

- **Node.js & MongoDB: Developing Back-End Database Applications** — IBM, Jun 2026
- **Developing Back-End Apps with Node.js and Express** — IBM, Apr 2026
- **Get Started with Cloud Native, DevOps, Agile, and NoSQL** — IBM, Apr 2026
- **JavaScript Programming Essentials** — IBM, Mar 2026
- **Getting Started with Git and GitHub** — IBM, Feb 2026

SOFT SKILLS

Communication, Problem-Solving, Teamwork & Collaboration, Time Management, Adaptability, Attention to Detail, Critical Thinking, Fast Learning, Creativity, Work Ethic
